

Know Your Leadership Signature

Pick Your Battles and Be Your Best Self

Workshop Overview

Participants in this workshop will explore their personal work style and strengths by using one of several assessments (DiSC, StrengthsFinder, MBTI, Total SDI, etc.). In-depth analysis of assessment results is facilitated to help leaders fully explore personal styles. Through activities and group discussion, participants will learn to acknowledge their strengths and style, protect from over-use, and make commitments to adapt their style to most effectively work in teams and/or manage direct reports. In this workshop, we work with leaders to turn their strengths and style into a personal "Leadership Signature".

Through the workshop experience, participants will be guided through a process of picking battles and being their best self by:

- KNOWING personal strengths and style
- BRANDING yourself as a leader
- COMMITTING to continuous personal development

Surround Strategy

To ensure the workshop has lasting impact on job performance, we have designed our signature surround strategy as follows:

Pre-Workshop Preparation

- All participants must complete the assigned assessment prior to the workshop.

In Class

- The workshop is very interactive, with practice activities for each section and skill. Personal Aha Moment and Commitment cards will be used throughout the workshop, and a final Commitment to Action Plan will be created at the end of class.

Post Workshop

- Each participant will have made action commitments to identify at least one behavior he or she will attempt to improve. Each participant will be encouraged to meet with his or her direct manager and share the Commitment to Action Plan.
- A follow-up communication will include links to optional in-depth materials for reference.
